Core concepts
DBMS , SSMS , OPERATING SYSTEM , COMPUTER
NETWORKING , CLOUD COMPUTING

Tools
VS CODE, MS EXCEL, MS WORD , CRM(BASICS),
POWER BI , SSRS , GIT , GITHUB

EDUCATIONAL QUALIFICATION:-

Master of Computer Application
Future University
Percentage 83%

2024 – 2026
Bareilly

Bachelor of Computer Applications
Mahatma Jyotiba Phule Rohilkhand University
percentage 74%

2020 – 2023
Bareilly

PROJECT DETAILS :-

Online Examination System

Programming Language :- Python, Tkinter, MSSQL , GUI Development, Database, OOPs
Purpose:- Developed a desktop-based online examination system using Python, Tkinter, and SQLite. Implemented secure login authentication, timer-based exams, and automated result generation.

Personal Portfolio Website

Technologies:- HTML, CSS, JavaScript
Purpose:- • Developed a responsive personal portfolio website using HTML, CSS, and JavaScript.
• Implemented dark/light theme toggle, responsive layouts, animations, and interactive project gallery.
• Integrated GitHub repositories, resume download feature, and contact section.
• Optimized the website for mobile and desktop compatibility.

Hospital Emergency Room Dashboard

Tools Used:- Excel, Power Query, MSSQL
Purpose:- Developed an Excel-based dashboard to analyze emergency patient flow and provide clear insights for better hospital decision-making.
Used Pivot Tables, Charts, Slicers, Conditional Formatting and Power Query for automated reporting and data cleaning.
