SUMMARY

Motivated MCA student with skills in Python, SQL, and GUI application development, seeking an opportunity to start a career in software development and data analysis.

EDUCATIONAL QUALIFICATION:-

Master of Computer Application Future University	2024 – 2026 Bareilly
Bachelor of Computer Applications Mahatma Jyotiba Phule Rohilkhand University	2020 – 2023 Bareilly

TECHNICAL SKILLS :-

Languages PYTHON, C++, SQL	Database MySQL, SQLITE
Libraries TKINTER, QT	Core concepts DBMS, OOPS, DSA(BASICS)
Tools VS CODE , GITHUB	Web Technologies(basics) HTML, CSS, JAVASCRIPT

PROJECT DETAILS :-

Online Examination System [🔗](#)

Programming Language :- Python, Tkinter, SQLite , GUI Development, Database, OOPs

Purpose:- Developed a desktop-based online examination system using Python, Tkinter, and SQLite. Implemented secure login authentication, timer-based exams, and automated result generation.

Personal Portfolio Website

Technologies:- HTML, CSS, JavaScript

Purpose:- • Developed a responsive personal portfolio website using HTML, CSS, and JavaScript.

- Implemented dark/light theme toggle, responsive layouts, animations, and interactive project gallery.
- Integrated GitHub repositories, resume download feature, and contact section.
- Optimized the website for mobile and desktop compatibility.

Typing Speed Tester Pro [🔗](#)

Technologies: C++, File Handling, STL, Chrono

- Developed a console-based typing speed tester application using C++.
- Implemented WPM calculation, accuracy tracking, timer, and leaderboard functionality.
- Used file handling, vectors, strings, and chrono library for performance tracking.
- Added difficulty levels, random paragraph generation, and colored console UI
